

Enlighted Eazy – Quick, Simple and Hassle-free Lighting Control

Makes Your Life Easy, Like Really Easy!

Enlighted Eazy transforms the way electrical contractors handle lighting control systems. This app-based solution makes installation and commissioning easier and faster. It features laser-based commissioning to simplify the process and avoid network issues, while the wireless design reduces setup time and maintenance requirements.

What's In It For You?

Quick Installation
& commissioning

Minimized
Troubleshooting
& Site Revisits

Higher
Profitability

The Enlighted Advantage

- **Robust & Reliable Network:**
System continues lighting control operations despite network outages
- **Powerful Sensors:**
Enlighted sensors are embedded with microprocessors that store lighting profile
- **Scalable:**
Enlighted's solutions can be scaled, in size and capabilities, on demand

Key Features

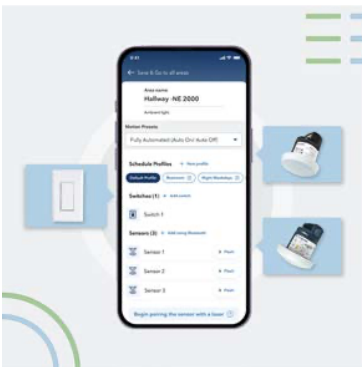

Laser-Based
Commissioning

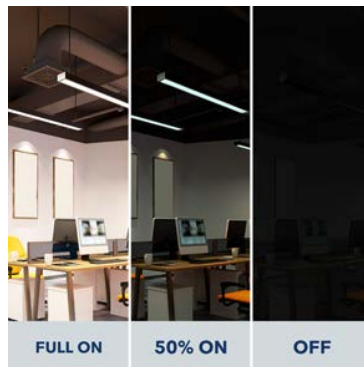

Daylight
Harvesting

Set
